

Univox® CTC

Cross the Counter Systems for counters, desks and cashiers

Features

- Correctly installed and adjusted system complies with the industry standard IEC 60118-4
- Reliable, powerful amplifiers guarantee problem free functionality
- Dual action AGC supplies excellent speech perception and eliminates pumping effects
- Compensation for long microphone distance:
AGC with very large input range (70dB) guarantees smooth sound level
- Low overspill due to defined spreading:
at 1.5 m from the middle of the desk the magnetic field is reduced more than 33dB
- Smallest distance between 2 systems is 1 meter
- Amplifier equipped with LED for function control
- User friendly - system works automatically without the need of any adjustment

No more communication problems, thanks!

Just add the goose neck microphone to our compact loop amplifier - consider it said and done!

Univox® CTC systems (Cross the Counter systems) are complete induction loop systems for installation in receptions, information desks, supermarket cashiers and ticket booths. All systems include induction loop amplifier, microphone and loop pad. When installed the systems grant for hearing aid users to communicate with the staff with high speech perception.

Two different amplifiers cover every need from small, wooden desks to receptions made of metal. The next choice is between a goose neck microphone and a small self-adhesive microphone which can be mounted on a glass or a wall. Every Univox® CTC system includes a loop pad which is mounted under the counter/desk.

The reliable and powerful amplifiers, equipped with a modern and intelligent AGC function, supplies excellent speech perception in any situation. Correctly installed the system works automatically without any settings or adjustments.

System overview

Part No	Description
202040A EU	<u>Univox® CTC-120</u>
202040A UK	Univox® DLS-50 loop amplifier
202040A AM	Univox® 13V microphone for glass/wall Loop pad Sign/label with T-symbol, 80 x 73 mm
202040B EU	<u>Univox® CTC-121</u>
202040B UK	Univox® DLS-50 loop amplifier
202040B AM	Univox® M-1 goose neck microphone Loop pad Sign/label with T-symbol, 80 x 73 mm
202040C EU	<u>Univox® CTC-122</u>
202040C UK	Univox® DLS-70 loop amplifier Univox® 13V microphone for glass/wall Loop pad Sign/label with T-symbol, 80 x 73 mm
202040D EU	<u>Univox® CTC-123</u>
202040D UK	Univox® DLS-70 loop amplifier Univox® M-1 goose neck microphone Loop pad Sign/label with T-symbol, 80 x 73 mm
202040E EU	<u>Univox® CTC-124</u>
202040E UK	Univox® AutoLoop amplifier
202040E AM	Univox® 13V microphone for glass/wall Loop pad Sign/label with T-symbol, 80 x 73 mm
202040F EU	<u>Univox® CTC-125</u>
202040F UK	Univox® AutoLoop amplifier
202040F AM	Univox® M-1 goose neck microphone Loop pad Sign/label with T-symbol, 80 x 73 mm

Accessories

Part No	Description
289015	Wall holder for Univox® DLS-50 loop amplifier

Technical data

For technical product information regarding the amplifiers DLS-50, DLS-70 and AutoLoop we refer to the product information at www.edin.se, Downloads (in home page content). For technical information regarding the 13V and M-1 microphones we refer to www.edin.se, Products, Microphones.

DLS-50 loop amplifier

DLS-70 loop amplifier

AutoLoop amplifier

Sign with T-symbol

Loop pad

13V microphone for glass/wall

M-1 goose neck microphone

Wall holder for DLS-50 loop amplifier

For additional information, please refer to User Guide/Installation Guide and CE Certificate which can be downloaded from www.univox.eu. If required, spare part list or other technical documents can be ordered at support@edin.se.
